Locally owned and operated since 1988

PRODUCTS & SERVICES

We are problem solvers and we solve them quickly. All the bullet points to the right are examples of *how* we solve them, but what we think really matters is that we are committed to finding print related solutions that allow you to communicate effectively with your audience. We are ready to provide you with the solutions you need and are able to do it on short notice.

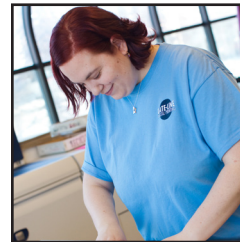

Geoff Welch & Travis Lewis, Owners

**DATE-LINE
RECYCLES**

We proudly use the recycling services of the Fairbanks Rescue Mission (who employ their own residents) to deal responsibly with our waste paper. Find out more about their recycling program and how it benefits our local and global community at <http://fairbanksrescuemission.org/frmrecyclecenter.htm>.

We also work with the FNSB H.I.R.E. program by donating our used toner cartridges for recycling. Learn more about this program by calling 474-2144.
