# ROLL UP

## GOOD

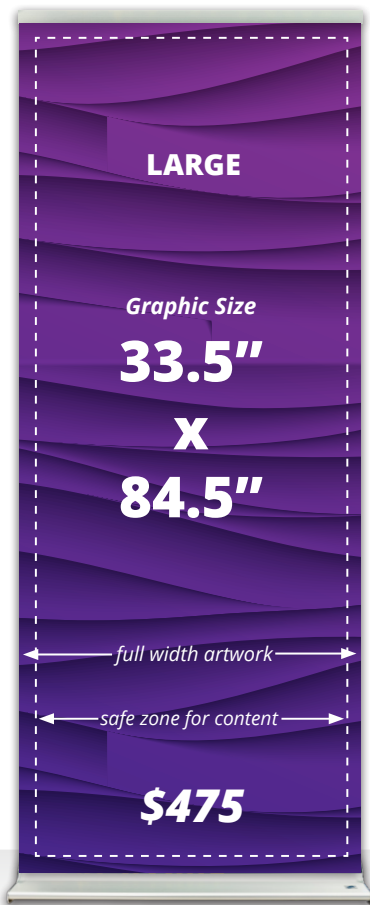

**Roll up banner stands** are highly portable and lightweight signage that you simply roll up and store in the included carrying tube when not in use.

*Ashley is 5'9" and is holding a large rollup banner stand in its travel case*

# RETRACTABLE

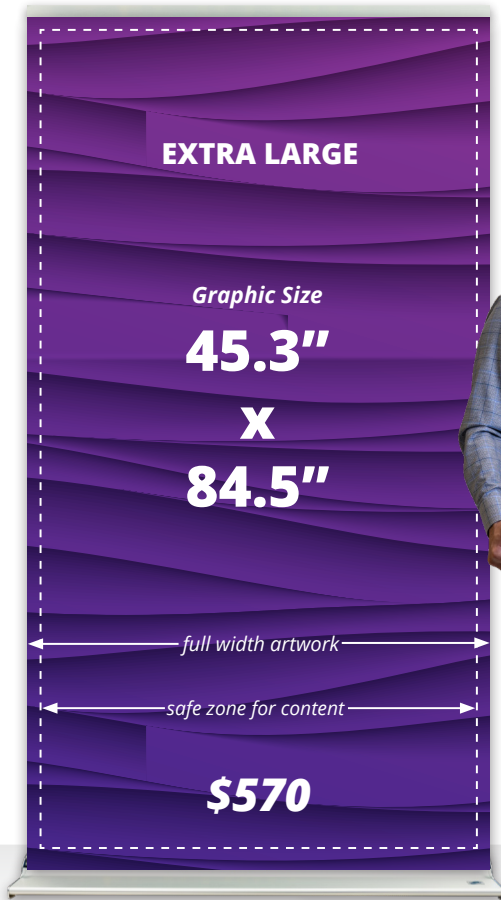

*MOST POPULAR*

## BEST

**Retractable banner stands** allow the signage to retract into the sturdy, portable base, protecting your banner when not in use.

All banner stand graphics can be replaced over time to keep your messages up to date while maximizing your hardware investment.

**Order now at [datelinedigital.com/bannerstand](https://datelinedigital.com/bannerstand)**

*Geoff is 5'10" and is holding a large retractable banner stand in its travel case*

## **ARTWORK SETUP**

*Your background colors and images can fill the entirety of the visible space, but we do not recommend placing text or other content within 2" of the edges.*

### **File resolution and format**

*You will get the best results with a 150 ppi PDF. A lower resolution file may not print well and a higher resolution file will be downsampled.*

### **Placing an order**

*Simply bring your file on a USB drive or submit an order online at [datelinedigital.com/bannerstand](https://datelinedigital.com/bannerstand)*

## **NEED HELP BRINGING YOUR IDEAS TO LIFE?**

*Designing promotional graphics might not be the best use of your time and expertise, so let us create custom artwork that will help you capture attention and connect with your audience.*

*Call us at 907-206-4174 or email [jobs@datelinedigital.com](mailto:jobs@datelinedigital.com) and we will help you get back to your most valuable work.*
